

## LIP & EYE CONTOUR

### LIFTING, MOISTURIZING, RADIANCE SERUM

with Low Molecular Weight & Nano-diffused Hyaluronic Acid,

Collagen, Lycopene and Anti-Wrinkle Lifting Peptides

NEW NATURAL FORMULA

Preseervative Free - Fragrance Free - Silicon Free - Mineral Oil Free - Nickel Tested - Cruelty Free

Rebel Professional Skin Care is a cosmeceutical line, result of studies and innovative research from a team of cosmetologists and dermatologists, to provide ever more performing and safer cosmetics. Rebel Professional Skin Care line includes exclusively Nickel Tested ingredients to prevent developing Nickel sensitivity, or to avoid allergic reactions if you are already sensitive to Nickel.

#### INDICATIONS

Rebel Serum Eye-Lip Contour is suitable for every skin type, including the most sensitive areas of the face, specific for eyebags, dark circles, swelling, wrinkles, dry skin and sensitive lip contour, sapless, wrinkly and prone to crack. It carries a deep hydro-restitutive action. It sensibly reduces the dark circles around the eyes and relaxes thin wrinkles. The eye area shines with new light. The lip contour, well shaped, smooth and hydrated, looks younger and richer.

#### PROPERTIES

New strengthened formula, but light at the same time and quickly absorbed.

Thanks to its small size, Low Molecular Weight & Nano-diffused Hyaluronic Acid deeply penetrates the skin, hydrating and filling the wrinkles from within.

Tensor Peptides relax the facial skin, with natural and long lasting soothing effect, without reducing the facial expressivity.

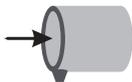

“Radiance” Effect: Mullein extract is a phytocomplex able to protect the skin from the damages caused by UV radiations, turning them in a source of light: the skin becomes bright and radiant. The dark areas of the eye contour shine in their own light.

#### HOW TO USE

Apply Rebel Serum Eye-Lip Contour at morning and night through light touches and taps. Rebel guarantees effectiveness and goodness from the first to the very last application: thanks to the exclusive Air Less Serum erogation system, it keeps your serum safe from recurrent contact with air.

#### ADVISORY NOTICE

Avoid the application near and/or on excoriations, wounds, sensitized areas and external mucosa. External use only. Keep away from the reach of children. In case of accidental ingestion, contact your doctor. Store in a cool and dry place, away from heat and direct sunlight. The Manufacturer/Distributor declines any responsibilities for uses outside of what is outlined in the recommendations.

Rotate the capsule to allow the spout to come out. Place it horizontally, press the dispenser repeatedly until the product comes out. Rotate to close it.
